

Stepping Up, Made Simple

Wait no more for the right time, budget or circumstances for Stepping Up to Lawson 9. Lawson has boosted its capacity to serve you, and simplified the process of Stepping Up. We now offer four migration and upgrade options to suit your business, budget and timeline objectives. Each option is specially designed to minimize associated costs, disruptions and risks to your operations. As a result, there's never been a better time to step up.

Choose the option that's best for your business, budget and timeline objectives.

Four Simple Ways to Step Up:

Option One: Lawson Professional Services

When you're ready to step up, we're ready to support you onsite with the largest ever Lawson Professional Services team — made up of Lawson consultants.

Option Two: Lawson Professional Services + Lawson Global Solution Centers

A lower-cost alternative to standard onsite migration services, Lawson Global Solution Centers offer a blended Lawson team sourced from the most efficient and effective location. We pair proven, high-quality remote delivery with onsite consultancy.

Option Three: Lawson Certified Partner Resources

Lawson certified partners boost capacity to offer you high-quality migration services. Experienced Lawson partner resources — from Paradigm Business Solutions, Analysts International (AiC), Hitachi Consulting, Blue Horseshoe Solutions, The Revere Group, CIBER, and Deloitte Consulting — undergo the same rigorous certification process that we use for our own consultants.

Option Four: Lawson Customer Certification Program + Lawson Professional Services (Unix and Windows)

The Lawson Learning organization trains and certifies you to plan, schedule and execute your own migration. This option allows our customers to be more self-reliant while receiving remote support from Lawson Professional Services to ensure success.
